You will need:

- Needles size 13 U.S. (9mm Euro) (or 12 or 14 if you knit loosely or tightly)
- Leftover yarns (or buy yarns you like, no more than one ball each)
- A crochet hook suitable for bulky yarn, a measuring tape and a pair of scissors.
- Stitch: stockinette, or garter stitch if you prefer. Garter stitch produces knits that are wider and shorter than stockinette stitch.
- If you use garter stitch, cast on 20 stitches only and add part of another repeat at the other end so as to get the length you want.
- Gauge swatch: not crucial for this. You can knit 22 stitches in mohair for 20 rows, and see if you get about 7" wide. Change needle size if necessary, or add/subtract stitches.

Set up:

Gather round all your bits and pieces and yarn ends and match them in a color scheme that pleases you. You will need 14 yarns or yarn combinations total. If a yarn is too thin to fit in with the others, mix it with another yarn to give it more body.

Now, arrange your yarns in order; pick the flashier yarns for the in-between rows (usually from 4 to 6 rows); and the "mileage" yarns for the longer stretches. So for example, a fantasy yarn for the in-betweens rows, and a sports tweed or a mohair for the longer bits. Once you like your sequence, put yarns in little baggies numbered 1 to 14.

Knitting Time!

Take yarn #1 (an in-between or edge yarn) and cast on 22 stitches.
Beginning of repeat:***

Bag number	Red yarn kit	Bronze yarn kit
1	knit 2 rows	knit 8 rows
2	knit 16 rows	knit 2 rows
3	knit 5 rows	knit 14 rows
4	knit 7 rows	knit 4 rows
5	knit 3 rows	knit 12 rows
6	knit 10 rows	knit 2 rows
7	knit 2 rows	knit 9 rows
8	knit 11 rows	knit 2 rows
9	knit 5 rows	knit 8 rows
10	knit 12 rows	knit 4 rows
11	knit 4 rows	knit 14 rows
12	knit 14 rows	knit 2 rows
13	knit 2 rows	knit 12 rows
14	knit 7R	knit 4 rows

***(End of repeat)

Repeat two more times. You should have 298 rows including the cast-on.

Use yarn #1 again to knit 2 more rows and bind off.

Fringes and finishing:

Clean up the loose ends, or tie them and let them hang for a more carefree look. Take the yarns you have left and cut 6" lengths for fringes or 4" if you want them 2" long only. You'll need 32 of them. Use as many different yarns as possible. Now sort them in unmatched pairs. (Please note that the pictured scarves have fringes 6" long (cut 12" lengths), and a lot more of them). You will fold each pair in two and hook them through the ends of the scarf, like this:
